

Ncode

Our rapid application development platform allows us to build customized client apps that are ready for production in a matter of weeks. The toolset of NCode allows for workflow, legal process, data visualization, data management and decision-tree based apps to be built to the precise specifications that clients request in order to enhance our legal service delivery.

For more information please see our press release on our website [here](#) or in the media [here](#).

NRF ContractorCheck

An interactive reference and compliance tool designed to assist clients in determining whether a member of their company is an employee or a contractor.

NRF ContractorCheck can be found [here](#)

Critical Injury Check

A practical tool designed to help employers manage more efficiently workplace accidents by assessing whether the injuries are critical and whether they should trigger reporting obligations.

Critical Injury Check can be found [here](#)

IP Portfolio Management Tool: The IP Portfolio Management tool keeps track, in a user-friendly manner, your IP portfolio and groups filings by family. Our fully searchable offering shows families along with representative images at a glance, allowing families to be expanded to reveal patent members.

RCM Database: Norton Rose Fulbright operates at the cutting edge of "Regtech" (regulatory technology). Our regulatory content and interpretation is linked with a solution built on NCode that integrates seamlessly with any client's regulatory compliance management system. Our regulatory data feed is tailored to your exact use case so that appropriate business divisions are alerted in a timely fashion when regulatory changes impact your risk exposure. Our data feed also allows a tailored mapping of regulatory requirements to your internal themes and lines of business.

Trigger: Trigger is Norton Rose Fulbright's automated trademark management platform. With this tool we keep track of all our clients' trademarks, manage any adverse marks that come into the marketplace and keep clients up-to-date with filing and other deadlines. It is our one stop shop for trademark management.
